

Mike Schnall

Senior Solutions Engineer | Software Engineer

New York City Metropolitan Area | 682-365-1263 | MMSchnall@gmail.com

LinkedIn • GitHub • Portfolio

Senior Solutions Engineer with experience connecting enterprise clients to machine learning verification products. Combines software engineering, API integration, data analysis, and client onboarding with an economics and operations background.

Experience

Informed.IQ | Senior Solutions Engineer

Apr 2022 - Present

- Lead technical onboarding and enterprise client integrations, translating requirements into implementation plans and supporting the transition from sales to active platform use.
- Diagnose complex integration issues, identify root causes, and explain technical concepts to technical and nontechnical stakeholders.
- Develop utility scripts for data collection and system activity analysis; use client analytics to identify integration gaps and optimize partner APIs.
- Architected and implemented methodologies that eliminated more than 300,000 lines of legacy code.
- Work with engineering, product, and customer success teams to bring client feedback into product planning; create documentation and training materials for client adoption.

Get PEYD, LLC | Database Manager and Bookkeeper

May 2015 - Jun 2021 | Inwood, NY

- Built and maintained the company database and automated data collection and financial reporting, reducing manual labor by more than 40%.
- Created custom reports for marketing campaigns and trained new hires in team workflows.

Technical and Client Skills

Engineering: Python, JavaScript, Ruby on Rails, React, Redux, Node.js, Express.js, HTML, CSS, Sass, Git, Webpack, jQuery.

Data and cloud: AWS, SQL, PostgreSQL, SQLite, MongoDB, Mongoose, API integrations, data analysis, automation.

Client delivery: Requirements gathering, technical onboarding, troubleshooting, documentation, training, cross-functional collaboration.

Earlier Experience

Delta Towing | Roadside Assistance Operative

Mar 2014 - Jan 2015 | Dallas, TX

Provided emergency roadside assistance; recovered a truck from a 25-foot ditch without additional vehicle damage.

Discount Bank | Security Officer

Oct 2012 - Feb 2014 | Jerusalem District, Israel

Led a security team at the Central Branch and implemented security protocols to protect the site.

FDNY Fire Zone | Sales Representative

Sep 2011 - Aug 2012 | New York, NY

Managed store inventory, improved sales processes, and coordinated merchandise operations with the supply chain team.

Hapoel Jerusalem Basketball Club | Sports Equipment Manager

Aug 2010 - Jul 2011 | Jerusalem District, Israel

Managed inventory and international travel logistics, reducing equipment misplacement and theft by more than 70%.

Israel Defense Forces | Infantry Soldier

Jul 2007 - Jul 2010 | Israel

Led teams in military operations. Earned an Exemplary Infantryman award in advanced training; highest rank held was Staff Sergeant.

Education and Languages

App Academy | Full Stack Web Development Bootcamp | Jun - Oct 2021

Queens College, CUNY | BA, Economics | 2020

Magna cum laude, GPA 3.878; National Society of Collegiate Scholars member.

Languages: English and Hebrew (fluent).

School Projects

App Academy projects, 2021. Source repositories are linked below.

Chord Pro Generator | MongoDB, Express, React, Redux

Built a songwriting application with randomized chord progressions and sheet-music output in a four-person team over four days. Source code.

TwoFacedBook | Ruby on Rails, React, Redux, Sass

Built a Facebook-inspired application with editable posts and profiles and media uploads. Source code.

Exploding Hot-Potato Soccer | JavaScript, HTML, CSS

Created a browser game with vector-based ball movement, sprite animation, and timed explosions. Source code.
